

Piston Power RDO 220

Rockdrill Air Line Lubricant

Piston Power RDO oils are quality rockdrill and pneumatic tool lubricants which is formulated from highly refined mineral oils, EP with corrosion inhibitors, antioxidants and other additives.

Applications

Piston Power RDO oils meet the lubrication requirements of:

- All percussion types pneumatic tools operating under wet and dry conditions.
- Rockdrills operating under harsh conditions.
- Concrete and pavement breakers (jackhammers)
- Tampers, Rammers, chipping and riveting hammers.
- Centralised lubricators of large crawler mounted drill rigs.

Performance Features

- Special EP and high film strength additive which withstand shock loads under boundary lubrication conditions.
- Provide high level of corrosion protection even under the severe water wash conditions found in rockdrill applications.
- Low pour point ensures that all tools remain free from oil deposits in areas cooled by rapid expansion of air.

Performance Specifications

Piston Power RDO oils meet the following specifications:

- Din 51517 Part 3 type CLP oils

Typical Characteristics

ISO Viscosity Grade	220
Kinematic Viscosity @ 40C cSt 100C cSt (ASTM D445)	 220 19
Viscosity Index (ASTM D2270)	 97
Flash Point C (Pensky-Martens Closed Cup) (ASTM D93)	 256
Pour Point C (ASTM D97)	 -24
